Project Title: Sanrio

I'd like to build a website in homage to the characters of Japanese company Sanrio, one that consists of a main page that showcases the characters, then separate pages for each.

- Each page will feature a brief description of the character, where/what the character has been featured on, etc.
- **Hello Kitty**
- **My Melody**
- **Little Twin Stars**
- **Cinnamoroll**
- **Bad Batz-Maru**
- **Pompompurin**
- **Chococat**
