Project Title: Yohji Yamamoto

I'd like to build a website in homage to the Japanese fashion designer Yohji Yamamoto, one that is a single page rather than multiple ones. The website will prioritize imagery more so than text, showcasing some of the top pieces of his past seasons.

- The aesthetic of the website will parallel that of Yamamoto's brand; in other words, clean layout, monochromatic, etc.
- **Early life**
- **Designer**
- **Fashion advocacy**
- **Sources**
- Again, imagery is key, text is secondary.
